

## Travel advisory for Sharjah

### **Following category of passengers are allowed to travel from Bangladesh:**

- Fully vaccinated residents after 14 days of taking the second dose of any WHO approved covid-19 vaccine and hold the vaccination certificate issued by the health authorities including the certificate on the Al Hosn App.
- All vaccinated passengers with E-visas arriving in Sharjah and Ras Al Khaimah.
- All vaccinated and non-vaccinated medical personnel working in the UAE including the doctors, nurses and technicians.
- All vaccinated and non-vaccinated education sector staff, including teachers of universities, colleges, schools and institutes.
- All vaccinated and non-vaccinated students currently studying in UAE.
- Humanitarian cases who have valid visas (for families' reunion).
- All vaccinated and non-vaccinated governmental staff of Federal and local entities.
- Vaccinated and non-vaccinated long-term visa holders (Golden visa)
- Vaccinated and non-vaccinated diplomats

### **Pre-approval for E-visa holders:**

All passenger arriving in Sharjah and Ras Al Khaimah with a newly issued E-visa must **register** prior to their departure.

### **Passengers holding resident visa of Abu Dhabi and Al Ain:**

Returning passengers should visit [uaeentry.ica.gov.ae](https://uaeentry.ica.gov.ae) before booking a flight to verify their entry status and carry a photocopy of passport and resident visa during the flight. No prior approval is required if resident of Sharjah or any other emirate.

### **PCR and Rapid Test:**

Passengers including UAE nationals arriving from Bangladesh are required to take covid-19 PCR test, conducted within 48 hours of the flight arrival time. Passengers are also required to conduct a rapid PCR test at the airport 6 hours prior to departure and will go through another PCR test at the arriving airport. Children under the age of 16 are exempt from the tests. Test results should carry QR code on it. You will be required to present physical copy of the report at the check-in counter.

### **Mobile Application:**

Passengers are required to download the ALHOSN application.
